

AECOM Office – Canberra

Australian Capital Territory

AECOM is a multinational engineering firm with more than 87,000 employees worldwide. A leading specialty business focused on design, engineering, planning, building, and project management, **AECOM** has 20 offices across Australia and New Zealand. Their ACT Office has shifted its operations to a new, modern building located in the central business district of Canberra, designed to ensure a working environment that is versatile, multi-functional, and has an open plan atmosphere to meet its employees needs in an agile setting.

AECOM Australia chose to utilise **Versalux'** services as a supplier of reliable lighting systems to make the move towards a modern workplace and to illuminate the entire commercial floor of **AECOM**.

Project Partners:

Client – AECOM Australia

Lighting designer and supplier –Versalux Lighting Systems
