

Brisbane International Airport

Brisbane Airport, Queensland

Brisbane International Airport services Brisbane and South East Queensland, the largest airport in the state of Queensland and third biggest in Australia. It is located approximately 12kms from the Brisbane city centre and contains two major terminals (Domestic and International).

A proposal was implemented to expand the Northern International Terminal of the Brisbane International Airport, investing \$135M into the redevelopment of facilities to meet the demands of future growth. The advancements include four new aerobridges, upgrades, and enhancements to the operating terminals, precinct and airside works.
