

## Westside Private Hospital

### Taringa, Queensland

**Westside Private Hospital** is a newly built 12-story medical facility of approximately 3,000 sqm located in the highly affluent western suburbs of Taringa, Queensland.

**Westside Private Hospital** is the largest of the seven-medical facilities in Australia by Montserrat Day Hospitals. The facility will now bring a new lease of life with advanced medical services for the growing community of the Western Suburbs as it looks to aid and assist in taking over the existing services of Indooroopilly Day Hospital as the central hub of health care services for patients in Brisbane. The **Westside Private Hospital** is state-of-the-art, new aged development designed with a private hospital, surgery centre, boutique hotel, and multiple residences housed under the one roof.
